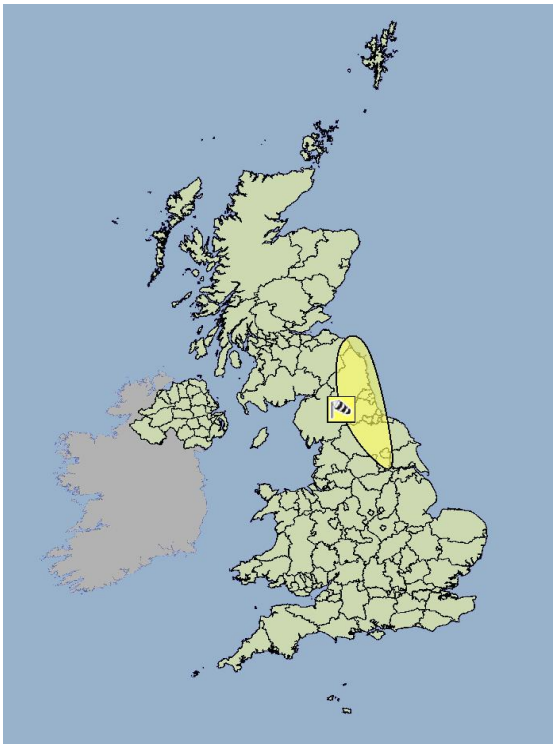
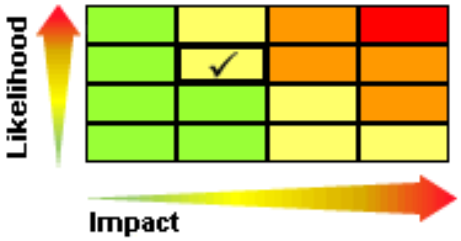
National Severe Weather Warning Service





Chief Forecasters Assessment
The strongest winds are likely over high ground (affecting for example trans-Pennine routes), though even at low levels will be very blustery, bringing strong cross-winds e.g. to the A1 and A1 (M).

The Met Office have issued a **Yellow Warning** of **Wind**

Valid from **03:00 on Sun, 25th Dec 2016** until **18:00 on Sun, 25th Dec 2016**

A further spell of windy weather is expected on Christmas Day (Sunday). Gusts of around 50-60 mph are likely, particularly over high ground. Some disruption to travel is possible and driving conditions may be difficult for high-sided vehicles.
